

How do I request a copy of my child or dependent's State of Michigan Immunization Record?

The Michigan Care Improvement Registry (MCIR) is an immunization database that documents immunizations given to Michiganders throughout life. This registry, MCIR, is where your child or dependent's Official State of Michigan Immunization Record is located.

Your doctor, healthcare provider or your [Local Health Department](#) can print an Official State of Michigan Immunization Record for you, your child or dependent. You may also request an immunization record by mail/fax using [this form](#) or by visiting www.mcir.org/public/.

All requests require a photocopy of the requestor's current state issued driver's license or picture I.D. The requester must state relationship to the child or dependent for persons under 18 years of age.

Use the **myHealthButton** for members of **Medicaid, Healthy Michigan Plan, MICHild, and Children's Special Health Care Services (CSHCS)** served by the State of Michigan. Visit the [quick reference instructions](#) or view the [video](#). To register visit [myHB registration](#).

Once you receive your Immunization Record, discuss your child or dependent's vaccination status with your doctor or healthcare provider.

This is an important step to ensure your child or dependent is up-to-date on all recommended vaccines and protected against vaccine preventable diseases.
